

I'm Ollee,
I'm always happy to
chat and listen!

Feeling sad? Stressed? Confused?
I'm here to help!

Customise me and
give me a new look!

Say "Hi" to Ollee!

Ollee is a virtual friend for your child who can give them advice about all sorts of things, from **school** and **friendships**, to **family life** and the **internet**.

Whether they've had a bad day, good day, or don't know how they feel, Ollee is there to guide your child through it while connecting them to you.

What is Ollee?

Ollee is a free-to-use app designed to empower children aged **8-11** by helping them with their **emotional wellbeing**. Ollee was created by Parent Zone, and is part of the BBC Children in Need's A Million & Me initiative.

Your child can tell Ollee how they are feeling, and receive **tailored advice and support**. They can then **share their feelings** and thoughts with you through the app.
